

## ***STUDENT HIGHLIGHT MAY***

Meet Ashley. This quirky young lady is an only child, living with her Mother and her sweet but frequently sassy 3 year old daughter. As a single mother Ashley returned to school this year, attending the night high school, a nontraditional school for older students returning to school. She faithfully attends Sunday School and Youth Group and always is making others laugh.

The following are her responses to questions when I interviewed her.

### **What is your favorite subject in school?**

Ashley: I would have to say Spanish. I usually do well in that class so that may be why I like it.

### **What do you like to do in your free time?**

Ashley: I love making things! I really enjoyed making cards to thank people that helped me during our Sunday school class when we talked about being thankful to God and others. I also liked painting eggs for Easter.

### **What is your favorite thing to eat?**

Ashley: RICE! I like rice any way it can be made, rice and beans, rice and chicken, rice and shrimp, rice pudding.

### **What is your favorite thing Brother Crosby shares from the farm?**

Ashley: Coconut sponge.

### **What do you enjoy most about being a Mother?**

Ashley: I love snuggling with her.

### **What is your favorite story in the Bible?**

Ashley: I love seeing rainbows so I would say the story about Noah and God's promise to him. Rainbows are so pretty and they make me remember the hope God promises to faithful people.

Please continue to lift Ashley and all the students Hearts and Hands for Jesus assists, in prayer for a successful school year. Your love, prayers and support make it possible for Ashley and many other students to return and remain in school. Your support and prayers are a rainbow of hope for a better future.
